Wireless Optical Mouse R

Issue July 2005

Pages 2

The Wireless Optical Mouse R is a new stylish pointing device designed for the ambitious user. It comes in black/silver design that fits the current product line. Optical sensors enable the mouse to work with great precision, even without visual contact between the mouse and receiver unit. It offers USB connectivity and thanks to its plug and play capabilities the mouse is ready to be used right after connecting. Supplied rechargeable batteries help to significantly reduce the total cost of ownership.

- Optical accuracy 800 dpi
- Five buttons, one wheel
- USB connection
